the office of the chief scientist works closely with fda's product centers, providing strategic leadership and support for fda's regulatory science and innovation initiatives.

intruehealth.com

the fda's use of the word "identical" is very much a legal interpretation, and is not literal

scoliosistreatment.biz

would you recommend starting with a free platform like wordpress or go for a paid option? there are so many choices out there that i'm completely confused .
